PET FROG

D

by Robin Nelson

A frog is a small **animal**.

Frogs make good **pets**.

Some frogs live on land.

Some frogs live in water.

Some frogs live in water and on land.

Some frogs like to climb trees.

Pet frogs live in a **tank**.

Frogs need a clean **tank**.

Frogs need food every day.

Frogs like to eat bugs.

Frogs need water to keep their **skin** wet.

12

Frogs need places to hide.

13

Frogs do not like
to be held.

Frogs can live
with other frogs.

We like to watch our frogs.

We like taking care of frogs.

Frogs can be many different colors.

Fun Frog Facts

A group of frogs is called an army.

The longest frog jump recorded was 33 feet 5½ inches.

Frogs drink and breathe through their skin.

The most brightly colored frogs are poisonous.

Frogs cannot live in the sea or any salt water.

A frog can change the color of its skin to blend in with its surroundings.

Frogs swallow their food whole.

The most poisonous frog on earth is the golden dart frog. The skin of one frog could kill up to 1,000 people.

Scientists believe that long ago frogs developed jumping legs to avoid being eaten by dinosaurs.
